PROFESSIONAL EXPERIENCE

Front-end Software Engineer (07/2023 - present)

Speedio

- Regularly develop and implement new features and improvements for the Atlas platform, working on UI/UX based on requirements and prototypes.
- I am involved in investigating and resolving bugs both in front-end (Vue.js, Quasar, Overmind) and back-end (Node.js, Ruby on Rails).
- I use MongoDB Compass, BI and Insomnia for troubleshooting with the support team and assisting customers.
- Containerization through Docker, use of RabbitMQ, TSH tunnels and terminal navigation to manage projects, APIs, and occasional maintenance.
- Deliveries following GitFlow and CI/CD processes.

Front-end Software Engineer (11/2022 - 07/2023)

SM Creative Marketing

- Developed responsive web applications for clients all over Brazil;
- Managed hosting, domain configuration and SEO improvement.

Front-end Software Engineer (01/2022 - 11/2022)

Workana

- Developed diverse web applications using MERN stack;
- Managed both front-end (React.js) and back-end technologies (Node.js);
- Focus on problem resolution, interface quality, usability and user experience.

Computer Sciences and Devices Maintenance Instructor (08/2019 - 12/2021)

Microbins

- Trained hundreds of technicians in dozens of different classes, preparing them and teaching all the necessary content for them to become skilled professionals;
- Conducted workshops on technology topics such as Device Maintenance, Computer Science, Programming, etc.

Graphic Designer (12/2009 - 08/2019)

Freelancer

- I provided services to major entities in Rio de Janeiro, such as UERJ, UFF and G.R.E.S Portela.
- Crafted visual content using CorelDraw and Photoshop and designed compelling and impactful materials, including flyers, banners and websites for almost 10 years.

EDUCATION
