PROFESSIONAL EXPERIENCE

Front-end Software Engineer (07/2023 - present)

Speedio

- Team's lead front-end, responsible for all UI demands and features;
- Regularly develop and implement new features and improvements for the platform, working on UI/UX based on requirements and prototypes with maximum fidelity;
- I investigate bugs both on the front-end and back-end, such as maintenance, integration, and management of Node.js and Rails REST APIs;
- Use of MongoDB Compass, BI, and Insomnia for troubleshooting alongside customer support and assistance;
- Containerization through Docker, use of RabbitMQ, TSH tunnels, and navigation through Linux terminals to manage projects and APIs;
- Deliveries in sprints respecting GitFlow, CI/CD, and SCRUM.

Front-end Software Engineer (01/2022 - 07/2023)

SM Creative Marketing

- Developed responsive web pages and applications using React.js and Next.js for clients of various sizes, always focusing on requirements, delivery quality, and working within defined deadlines;
- Developed user interfaces integrated with back-end and APIs, following the MVC architecture model;
- Worked on both fronts as Designer and as Developer;
- Operated and configured non-relational databases like MongoDB (NoSQL) and handled common data structure formats such as JSON and REST APIs;
- Implemented TDD for unit testing and was responsible for hosting, domain configuration, and SEO optimization.

Computer Sciences and Devices Maintenance Instructor (08/2019 - 12/2021)

Microlins

- Trained hundreds of technicians in dozens of different classes, teaching concepts of Electronics, Hardware, Software, Operating Systems etc;
- Conducted workshops on technology topics such as Device Maintenance, Computer Science and Programming.

Web Designer (12/2009 - 08/2019)

UERJ/FFP

- Developed pages for FFP using Dreamweaver, HTML, CSS and Flash;
- Responsible for creating flyers, banners, visual identities, logos and static pages for recurring events on FFP;
- Regular maintenance of FFP core pages, as well as issues related to hosting and domain.
